The Miyawaki forest has been carefully planned within Whispers of Sky. Eventually, it would not just bring down the temperature, but will also serve as a sanctuary that provides us with clean air to breathe.

Work, play, relax, socialise. Choose your canopy of green spread across Whispers of Sky. Chill out at the Leisure Corner, Zen Garden or the Great Lawn. In a mood for a game? EV Charging points across the property, rain water harvesting, solar panels and wind turbines make the whole place more eco-friendly and sustainable. The entire Clubhouse, common area lighting, landscape lighting and OWC can be run on renewable power. This in turn saves electricity and water bills for residents. Small wonder that the property has been awarded an **IGBC Gold rating.**
